### LOCAL NEWS.

Mrs G. W. and Mr. Tom Shreeves of Edmonton, formerly residents of Stony, were in town over the week-end, visiting friends.

The regular social evening of the Walther League will be held Sunday evening, next, the 13th, in St. Matthew's Schoolhouse No. 2.

Shoppers in town should be careful when they put their groceries and other purchases in their sleighs at the present time. The safest plan is to leave your goods in the store until pulling for home. A young chump who lives north of town lost \$5.25 worth of groceries from his sleigh the other afternoon.

The hockey game in town on Sunday resulted in a win for Stony, by 3 to 1, over Callahoe.

Ross Flats hockeyists, from Edmonton, journeyed to Duffield on Sunday, and won by 3 goals to 2.

The manager of the Duffield hockey team is anxious for a game with Stony hockeyists, and it's likely Stony's team will visit Duffield on Sunday next.

The piano which has reposed in Ducholke's Hall for five years was sold on Saturday to Muir Lake Community.

At the nominations Monday for Stony Plain Councilors, the three retiring members Dr. Outway, H. Miller, A. Michael, were re-elected by acclamation. Mr. Wudel was elected, replacing Mr. Brooks, resigned.

The winter conference of the combined Walther Leagues of Alberta and B. C. districts will be held in Stony Plain from Friday Feb. 18 to Sunday, Feb. 20, inclusive. Rev. Bailey, Chicago, educational chairman of the International Walther League, will be present. A large delegation from the two provinces will be present.

The question of the putting in force of the Herd Law in Inga M.D., which was the cause of much discussion last summer, will be submitted to a vote of the ratepayers in the said M.D. The vote will be taken coincident with the vote for Councilors, in those three divisions in which the present incumbents' time has expired, and also in the three other divisions in which there are no Councilors' contests. The date set is Saturday February 27.

The retiring councilors in Inga M. D. No. 520, this year are—McKinlay, Division 1; Hopkins, Division 4, and R. Goetz, Division 6. Nominations for these offices will be held Saturday, February 19 with election day the week following, Saturday, February 26.

M. M. Mecklenburg, the well known optical specialist, will be at the Royal Hotel, Stony Plain, on Monday, February 28. See him and see good.

## Solving Western Problems

Dr. H. M. Tory, president of the National Research Council and also of the University of Alberta, making appeal in a recent issue of a Canadian periodical for greater aid in the work of research in Canada, says: "Such an organization could in a few years be made to mean far more to industry than all the petty tariff changes about which there is so much agitation."

Dr. Tory is a man of sound economic views, above playing the game of party politics, and is one whose opinions carry great weight throughout this whole western country, and, indeed, in an increasing extent throughout the Dominion. His words, above quoted, are, therefore, deserving of attention.

The truth of this statement can hardly be questioned, because, by making production more efficient greater help will be brought to industry in all its branches than can possibly be done by any tariff. Efficiency in one branch of industry assists all other branches whereas tariff changes which are designed to help one particular industry or group of industries very frequently operates to the disadvantage of other industries more or less dependent upon the first group.

The National Research Council is, within the limits of its comparatively small income, practicing what its president preaches as to the undoubted benefits of scientific research applied to the needs of industry. A few days ago announcement was made that research work of really vital importance to all the wheat farmers of western Canada is to be carried on at all the provincial universities of the three prairie provinces in association with the Dominion grain research laboratory at Winnipeg. The particular problem to be tackled is damp and tough grain, the importance of which will be appreciated by every farmer who has sustained loss during the present crop season.

The National Research Council some time ago appointed a special committee on grain research to study various problems connected with the production and marketing of grain, including factors affecting milling and baking quality, commercial grading, and diseases affecting grain plants, particularly rust. This committee now proposes an immediate survey of the methods employed in grain drying, to be followed by a study of the different methods with a view to determining which is most advantageous from the viewpoint of economy and the resulting quality of the dried product.

In order to make investigation as thoroughgoing as possible, the Universities of Manitoba, Saskatchewan and Alberta will engage in the work. Milling and baking test laboratories of the most modern type have already been installed at the Alberta and Saskatchewan Universities, and the same equipment is being installed in Manitoba. Dr. Tory has expressed the opinion that it is doubtful if a research of such magnitude has ever before been undertaken in Canada.

Our Prairie Universities are playing a large part in the development of these provinces and in finding solutions for many problems. Research work is necessarily slow. To be of any value it must be most thorough, frequently covering years of study and many tests. Anything haphazard will not do. Because of this, many people are impatient of research work and are critical of money spent on it. But the fact remains that it has been the work of scientists and experts, rather than tariffs, which has made the United States the great industrial nation it is today. The industries of Great Britain built up their world trade, not because of tariffs, but through the application of scientific discoveries. Industrial Germany was the product of research work probably to a greater extent than any other country.

Canada, it must be admitted, has been backward in this respect, and our manufacturers are largely to blame, because for years they have been obsessed with the idea that in Customs tariffs, and in Customs tariffs alone, was prosperity to be found. If the Canadian manufacturers would throw the whole weight of their influence and resources back of the National Research Council, a new and better era in Canadian industry would result.

## Children Cry for

**Fletcher's  
CASTORIA**

MOTHER—Fletcher's Castoria is especially prepared to relieve infants in arms and children all ages of Constipation, Flatulency, Wind, Colic and Diarrhea; allaying Feverishness arising therefrom, and, by regulating the Stomach and Bowels, aids the assimilation of Food; giving natural sleep.

To avoid imitations, always look for the signature of *Wm. H. Fletcher*. Absolutely Harmless—No Opium. Physicians everywhere recommend it.

## A Wonderful Age

Seventeen Has Been Heroic Age for Many People

Many are the readers who laughed till they cried over Booth-Tuckington's "Seventeen." The hero of that book is a typical boy at an age when momentous subjects swing into his ken. Girls, tall and short, blond and brunette; clothes, his first dress suit, gorgeous neckties, the fancied necessity of shaving twice a week; flowers, bonbons, dates—at seventeen, what a life!

Yet seventeen is an age of something besides these things usually associated with callow youth, George Young, winner of the Catalina Channel swimming contest, is seventeen. Think of the qualities necessary to achieve a swim of 22 miles in cold, rough and dangerous waters. One hundred and two men and women made the start, some of them experienced swimmers for a decade or more, but it was a youth of seventeen who was there at the finish.

Seventeen is an age when most anything might happen. Time and time again it has been a heroic age for some. At that age many a youth has borne the load of the family support, and borne it uncomplainingly. Fortitude, pluck, persistence, and, if all these belong to the age of seventeen, and because of this fact youth is the wonder of the world. Was it not St. Paul who wrote to a certain young man: "Let no man despise thy youth?"

### Swollen Joints, Quickly Limbered Up

#### Rub On Nerviline

You would be surprised at the wonderful action of "Nerviline" in just a few minutes. Rubbing this and not an oil preparation, it is able to penetrate quickly, and down it sinks into the tissues, carrying its healing, soothing action wherever it goes. For stopping muscular or nerve pain, for easing a stiff joint, Nerviline is a complete success. Pain, severe stiffness, all vanish before the magic power of this wonderful liniment. After fifty years of success proves the merit of Nerviline, which is sold every where in large 35 cent bottles.

#### King and Prince to Exhibit

Prize Birds to be Shown at World's Poultry Congress in Ottawa

Among the exhibits at the World's Congress to be held in Ottawa, Canada, July 27 to August 4, 1927 will be prize birds from the farms of King George V. of Britain, H.R.H. the Prince of Wales and possibly from the famous pens owned by King Albert of Belgium and King Alfonso of Spain.

Exhibits to be shown at the Congress are coming from at least 35 countries all of which will be represented by delegates. No less than 2,500 poultry experts and fanciers are expected from the United States.

The Congress is to be held in Landsdowne Park, Ottawa, where the Central Canada Exhibition is held annually. Extensions to some of the principal buildings on the grounds have been made at a cost of \$250,000, in order to take care of the thousands of exhibitors that are coming to the Congress.

#### That Overseas Trip

The Canadian Pacific Railway are operating through tourist sleeping cars from Winnipeg each week to connect with steamers sailing from Saint John, N.B. This arrangement has been made in order to provide every convenience for overseas travellers. These tourist cars go direct to the ship's side, and assure connection and facilitate transfer from train to steamer. See any ticket agent of the Canadian Pacific to arrange for bookings and reservations on these cars.

**Ice Fall is Perennial**  
Surpassing any waterfall in grandeur, an ice fall is the boast of Mount McKinley. A large glacier, coming down from a height of 18,500 feet to the 15,000 foot level makes a sheer drop of 3,000 feet. The fall is perennial.

Recognized as a leading specific for the destruction of worms, "Mother's Worms" is a safe and effective remedy for children everywhere. It seldom fails.

Take away a reckless automobile driver's license and he becomes a common pedestrian, which is about the worst punishment the court could give him.

## Canadian Farmer Tells His Experience

"Les" Booth, widely known Ontario farmer, and a sick man for 20 years, suffered daily, only half alive. Now strong, robust, vigorous, credits new found health to Tanlac

Though popularly known as "Les," Mr. Booth's correct first name is George. His home is at 271 Perth St., Brockville. For the past three years he has enjoyed vigorous health but what he endured before then is best told in his own words. "For twenty years my arms, shoulders, back and hips, ached with rheumatism," said Mr. Booth. "Often I had to quit work entirely and I remember one day I fell that kept me in bed for six months."

"My case got to be so chronic that the help ran the farm. I was practically helpless. Even my wife and hands were worn out so that I couldn't write my name. I dreaded bedtime, for I got no rest, but lay there in agony, waiting for morning. Nervous spells would seize me and I would tremble all over like a leaf. I couldn't get any benefit from my food and had to force myself to eat. My weight was far below normal."

"Three years ago I decided to give Tanlac a good trial, for nothing else had helped me. I could scarcely believe such results were possible as those Tanlac soon showed. The aching stopped, my appetite came back and I could eat heartily. My nights became more restful, too, and I slept

soundly. I gained 16 pounds which I still retain, and I now work hard outdoors from 8 to 10 hours a day. I never have an ache. It's hardly believable! If folks want to know what Tanlac can do, tell them to write to Les Booth, or to come and see me. I'll tell 'em."

If your health is broken from overwork or neglect, profit from Mr. Booth's experience. Try Tanlac, nature's own body builder, made from roots, herbs and barks. Your druggist has it. Over 52 million bottles sold.

### Alberta Takes Care of Settlers

Boards of Trade Supply New Comers With Information

Immigrants to the number of 6,118 registered at the Immigration Hall at Edmonton in 1926, as compared with 1,954 in 1925. A large proportion were from the British Isles and the balance from Central Europe. The boards of trade at Edmonton, Calgary, and Lethbridge, are bestirring themselves to supply the new settler with the best information as to desirable lands and do all they can to help him make good.

The power derived from the hydro-electric plants at Niagara Falls is equal to the combined efforts of 15,000,000 able-bodied men.

Pearls, like diamonds, are found in different colors, and, oddly enough, the black pearl is the most expensive.

### Agriculture On Up Trend

Farmers Have \$8,250,000,000 Invested in Country

Hon. T. A. Crear, president of the United Grain Growers, predicts that Canada's development in the next fifty years will be unparalleled in history. Agriculture in this country is just starting a great forward movement, he said, and farmers have already invested \$8,250,000,000 in the country.

Only the uninformed endure the agony of corns. The knowing ones apply Holloway's Corn Remover and get relief.

"So dark and yet so light," remarked the funny man as he looked at a ton of coal the driver had just delivered.

It is easier for a young man to fool his own mother than it is for him to fool any other woman.

## GARGLE

## ASPIRIN

Dissolve two "BAYER TABLETS OF ASPIRIN" in four tablespoonfuls of water and gargle thoroughly.

Swallow some of the solution. Don't rinse the mouth. Repeat gargle every two hours if necessary.

This is an effective gargle proved safe by millions and prescribed by physicians.

**Safe** Accept only "Bayer" package. Look for the "Bayer Cross."

Handy "Bayer" boxes of 12 tablets. Also bottles of 24 and 100—Druggists. Aspirin is the trade mark (registered in Canada) of Bayer Manufacture of Monocristalline Salicylic Acid (Acetylsalicylic Acid, "A. S. A."). While it is well known that Aspirin is a Bayer manufacture, to assist the public against imitations, the Tablets of Bayer Company will be stamped with their general trade mark, the "Bayer Cross."

LAKEVIEW COALS, LIMITED, EDMONTON, ALTA.

## Exceptional Advantages Are Offered In Western Canada For The Sheep Raising Industry

No country in the world is perhaps better adapted than Canada for sheep raising and no country offers greater opportunities for the development of the industry. The physical features, the soil, the climate, and the agricultural population are all favorable to the production of mutton and wool of the highest quality. In most of the provinces there is an abundance of waste lands admirably suited to the raising of sheep. Furthermore, there are many farms, particularly in western Canada, that as yet are carrying no flocks in eastern Canada on mixed farm lands and in the grain belt of western Canada the small flock of ten to fifty ewes is generally kept. These flocks can be maintained at little expense and return an excellent revenue for the labor required and money invested. In the rougher parts of eastern Canada and in some districts of Manitoba larger flocks of from one to several hundred head are kept under semi-ranching conditions, often by new settlers who may have been originally miners or fishermen. Many of these provinces there are tracts of land awaiting ranching or semi-ranching purposes. On western farm lands, by utilizing stubble pickings, supplemented by a forage crop with a short finishing period of grain, the farmer could market choice market lambs towards the end of December.

The labor attached to sheep raising is not great and is more or less seasonal, lending itself readily to the order of events where grain farming is the major farm activity. The initial cost of a sizable flock is not large, and so if the best returns are not made at the start, the loss is not likely to be heavy. Expensive buildings are unnecessary for sheep and a cheap pool and straw shed is ample. No addition has a higher value for wool destruction than sheep. The sheep provides two sources of revenue annually. The lamb pays for its keep the first year with its fleece and at two years produces both wool and lamb. Statistically, the wool situation could not be better for the shortage of wool during the past year has been reflected in price values to the extent of around 10 cents for the lower grades and up to 15 cents or better for the finer wool. The prospects are that the sheep men in the business have several good years ahead.

The Dominion and provincial governments have repeatedly drawn attention to the possibilities for sheep ranching in this country through bulletins by the various agricultural departments. The Natural Resources Intelligence Service of the Department of the Interior, at Ottawa, has also published a report on the woolen industry and quite recently has issued a map showing in graphic form the extent and location of the various areas in Canada adapted from the standpoint of food supplies and climate for sheep ranching, copies of which are available, without charge, to those interested. A complete summary of the number and location of knitting mills is also shown on this map.

In this connection it may be interesting to quote a well known British authority with respect to the efficiency of Canadian woolen mills, namely Mr. Alfred F. Baker, professor of Textile Industries at Leeds University, who, following a visit of inspection to Canada and the United States in 1919, said:

"Upon the whole, the Canadian wool mills come up to the best Yorkshire—some few Yorkshire mills are better, many are very much worse. Quite a considerable part of Canada is so fortunate in climatic conditions that even in spinning and weaving no special arrangements, other than those made in Yorkshire, for example, are adopted."

"Hosiery mills are in evidence in every textile district of the Dominion and the equipment of those mills leaves little to be desired. The hosiery mills of the United States are possibly behind the hosiery mills of Canada, in fact some of the Canadian hosiery mills cannot be beaten."

W. N. U. 1007

### Oriental in B.C.

Hold Property in Province Assessed at \$11,500,000

British Columbia's Oriental population today stands at about 46,000, or 82 Asiatics for every 1,000 whites, it was disclosed in a survey recently conducted by the provincial government all over the province. The report, which was made public by the department of agriculture, shows the Oriental population has grown rapidly of late but the Japanese are outstripping the Chinese and Hindus.

Oriental in British Columbia, according to the report, hold real property assessed at \$11,500,000; more than 3,000 Asiatics are licensed to carry on business of almost every kind in the province and attendance of Oriental children in public schools has increased at a startling rate, representing 3.3 per cent. of the entire school population. The Oriental school attendance is increasing at more than double the rate of the increase in total school population. The report further shows that the Oriental problem, once concentrated almost entirely in British Columbia, is beginning to hit the rest of Canada in a big way, at least with the sudden flocking of Orientals to the other provinces—a movement which is perhaps the most significant fact revealed by the investigation.

### Pasture Sheep on Cheap Lands

Good Profits Reported in Alberta by This Method

In tests extending over the last five years the Dominion Government Farm has proved conclusively that it pays and pays handsomely to pasture sheep on the cheap land in the mountains during the summer, bringing them down to the irrigated lands for wintering and finishing. One flock numbering approximately 1,000 head, is reported to have shown a profit of over \$7,000 for the year and during the past four years profits have averaged close to \$5,000.

### Canadian Horses for Russia

The Russian Government is to buy another herd of Canadian horses this spring, it was announced at the Alberta Provincial Horse Breeders' Association meeting by R. E. Wilson of Calgary, Dominion Government Agent. From 5,000 to 6,000 will be wanted.

Brown—I feel wretched. I haven't a friend in the world.  
Burrows—You can make one right now. I need 10.

Greater Berlin now has about 359 movie houses with some 140,000 seats, the record for Europe.

### Montreal Grets Their Excellencies

A striking impressive spectacle was presented at the C.P.R. Windsor Street Station, Montreal on the occasion of the first official visit to that city of their Excellencies, Viscount the Highlanders and Lady Willington, as she, and Lady Willington. A guard of honor of a hundred men of the Royal Highlanders of Canada under the command of Major Erskine Buchanan

An Attractive Dress for Daytime Wear

Plaits are the outstanding feature of the newest frock—whether of one-piece or two. You are sure to be in the mode of this season with a frock like the one pictured here. The bodice front is gathered at the sides to a belt forming a panel, and the skirt has gossamer plaits in front, while the back is plain; the collar may be worn open or closed and the long sleeves are gathered to wristbands. No. 1443 is in sizes 16, 18 and 20 yards. Size 18 (36 bust), requires 3 1/2 yards 36-inch, or 2 1/2 yards 54-inch material. Price 20 cents the pattern.

Our Fashion Book, illustrating the newest and most practical styles, will be of interest to every home dressmaker. Price of the book 10 cents the copy.

## Three Prairie Universities Will Try To Solve Problem Of Tough And Damp Grain

### Western Rye Grains

Best Hay Crop in Sections Where Moisture is not Abundant

Western rye grass has established itself as a valuable hay and pasture crop for the sections of the prairie provinces where moisture is not abundant enough to permit of the successful growing of timothy. Recent tests of the grass at the Lacombe, Alberta, Experimental Station, have fully borne out expectations as to the value of this fodder. In competition with Bromus, grass, different strains of timothy, and with Kentucky blue grass, western rye grass was easily first, outyielding the other grasses by a considerable margin.

It is interesting to note in this connection that of the strains of rye grass tested in the experiments, "Grazer," a variety developed by the Central Farm at Ottawa, outyielded the commercial varieties used. Yet, according to the latest report of the Dominion Agronomist, there have been new varieties recently developed at the Central Farm which appear to be considerably heavier yielding than "Grazer." It is therefore expected that within a very few years further strains will be generally available that will produce more profitable yields than those in use at present.

### Work of Colonization Association

Total of 1,661 Families Settled on Land as Result of Efforts

During 1926 the Canada Colonization Association settled 734 families on 165,004 acres in Western Canada, 55,675 acres of which were in the Province of Manitoba, according to T. O. F. Herzer, manager of the Association. Since the Canadian Pacific Railway took over the Canada Colonization Association on January 1, 1925, a total of 1,661 families have been settled, taking up 402,566 acres of land worth with equipment between \$18,000,000 and \$19,000,000. Forty-five per cent. of this land is in Manitoba, 30 per cent. in Saskatchewan and 25 per cent. in Alberta.

### Swift Current is Growing

Building permits issued at Swift Current for 1926 nearly doubled those of 1925, being \$161,755 as compared with \$85,020. Recent growth has been phenomenal. Permits for 1923 were only \$14,800 and those for 1924, \$36,250.

### Alberta's Agricultural Production

Alberta's agricultural production in 1926 was of a value of \$255,900,000, very carefully estimated, according to the Hon. George Hooley, Minister of Agriculture, as quoted in the Calgary Herald.

Research work of the highest importance to all the wheat farmers of Western Canada in regard to the problem of damp and tough grain is to be carried out at the three Prairie universities and the Dominion Grain Research Laboratory at Winnipeg, under the direction of the National Research Council of Canada.

About a year ago the National Research Council appointed an associate committee on grain research to look into various important problems connected with the production and marketing of grain. At its organization meeting last year, this committee drew up a comprehensive program of investigation, particularly with regard to wheat, involving factors affecting milling and baking quality, commercial grading, and certain disease problems.

A special meeting of this committee was held in Winnipeg recently for the purpose of consulting with the Board of Grain Commissioners and representatives of the Wheat Pool in regard to the pressing problem of damp and tough grain. The meeting was held in the office of the grain board. There were present, representing the grain board: Commissioners Boyd, Robinson and Snow, secretary Rathbone and Dr. F. J. Buchard, chemist of the board; representing the National Research Council Associate Committee, Dr. H. M. Terry, president of the National Research Council, Dr. R. Newton, professor of agronomy, University of Alberta; Dr. T. Thorvaldson, professor of chemistry, University of Saskatchewan; and T. J. Harrison, professor of field husbandry, University of Manitoba; representing the Grain Appeals Board, Mr. George Seris; representing the Saskatchewan Wheat Pool, Messrs. H. Marsh, Brooks Cotton and A. F. Sproule; representing the Central Selling Agency, W. A. MacLeod.

The meeting discussed the basis for the spread in prices between straight grades and tough or damp grades and the possible effects on milling and baking quality of the methods of drying now employed. These two questions were considered of urgent importance on account of the very large amount of damp and tough grain coming on the market this year. Due to the great uncertainty on these two points it was decided to undertake at once an investigation of the whole matter. The members of the grain board and the representatives of the Wheat Pool assured the committee that all necessary facilities for carrying out this investigation in existing drying plants would be made available, and that the committee would have the hearty co-operation of both bodies.

The first step to be undertaken will be a survey of the methods now employed in grain drying. This will be followed by a comparative study of the different methods, with a view to determining which is most advantageous from the point of view of economy and the resulting quality of the dried product. It is believed by members of the research council that this investigation will also provide a more satisfactory basis on which to determine an equitable spread in price between the different grades.

In order to make the investigation as thoroughgoing as possible, the universities of Manitoba, Saskatchewan and Alberta will act in co-operation with the Dominion Grain Research Laboratory at Winnipeg and with the other agencies concerned. Milling and baking test laboratories of the most modern type have already been installed at the universities of Alberta and Saskatchewan, and the University of Manitoba is in process of installing the same equipment. Tests will be repeated in all these laboratories so that there may be no question of the complete reliability of the conclusions reached.

Dr. Terry pointed out to the meeting that the associate committee of the research council felt a very grave responsibility in undertaking an investigation involving questions of such importance to both the producer and the grain trader. He doubted if a researcher of such magnitude had ever heretofore been undertaken in Canada.

A good talker is always delighted when he encounters a good listener.

### WORLD HAPPENINGS BRIEFLY TOLD

There are 142,500,000 people in Russia, according to preliminary official estimates. This is an increase of thirty-eight per cent since 1897.

The Saskatchewan wheat pool has taken out a \$100,000 building permit for a drying plant, at its terminal elevator in Port Arthur.

General Sir George W. A. Higgins, who won promotion for his service in the Crimean War, is dead at his home at Gylenscroft, Marlborough-Thames.

Discovery of a supposedly new comet of the eighth magnitude is announced in a cablegram received at the Harvard Observatory from the astronomical clearing house in Copenhagen. It is to be called Reid's comet.

Twenty-seven rebels have been executed by the military authorities in Oaxaca City in reprisal for the massacre of a small Federal column, which was annihilated by rebels in San Miguel El Grande on January 12.

President Kruger's traveling wagon which it was announced in November, the City of London corporation had decided to offer to the Dominion of South Africa has been shipped to South Africa.

### They Can Be Taken By Old and Young Alike

#### Saskatchewan Lady is Very Enthusiastic About Dodd's Kidney Pills

Mrs. E. M. Tatton Gave Them to Her Little Boy Who Was Suffering From Urinary Trouble.

Wadhon, Sask. (Special).—"Ever since my little boy was born he has suffered with 'molar' urination," writes Mrs. E. M. Tatton, a well known resident of this place. "I thought he would grow out of this but he did not do so. At times I thought it was pure laziness and used to spank him, until I discovered it was not the child's fault, but kidney weakness. I tried Dodd's Kidney Pills with great success and he is never troubled now. My husband and I use them frequently whenever we have pain in the back."

Dodd's Kidney Pills have become a family remedy because people have tried them and found them good. They help Rheumatism, Lumbago, Diabetes, Fatigue, Back, Heart Disease and Urinary troubles, because all of these are either Kidney Diseases or are caused by the kidneys failing to do their work.

Tabby—"Kind hearts are more than coronets."

Wife—"Why, Henry, that isn't right. It's 'Kind hearts are more than coronets.'"

Hubby—"Well, I knew it was some kind of a musical instrument."

### Delivery Horses in Demand

**Reserve Animals Always Needed to**

Clean, upstanding horses, sixteen hands high, especially strong in the legs, weighing from 1200 to 1400 pounds, and single broken, are the type of animals business firms want for delivery horses, members of the Saskatchewan Horse Breeders' Association were told at their annual meeting by Arthur Newman, Winnipeg. Mr. Newman was speaking for the larger firms in that city who require a number of horses for service on their delivery wagons.

"There are over 400 delivery horses in daily service in Winnipeg," Mr. Newman stated, "and reserve animals are needed at all times to fill up the gaps in the ranks. Only one in ten of the animals we get now are single broken, and you can imagine the difficulty of breaking them in busy streets of Winnipeg. Any farmer who has a horse or number of horses answering the description of what we consider the 'typical delivery horse' will all be able to sell them, and at good prices."

**"IDEAL fashions"**

by *For Dolly Hamilton*

**Shirring is Modish This Season**

This charming frock would be very effective if fashioned of crepe satin or velvet. The two-piece skirt is shirred to the bodice in an attractive manner, thereby achieving a soft self-trimming. Tulle is fastened at the left side of the round neck and falls gracefully to the hem. Long sleeves may be added and would make this a very smart afternoon frock. No. 1456 is for misses and small women and is in sizes 16, 18 and 20 years. Size 18 (26 bust) requires 3 1/4 yards 38-inch material, or 2 1/2 yards 44-inch, and 3/4 yard 36-inch lining; 3/4 yard tulle. Price 20 cents the pattern.

Home sewing brings nice clothes within the reach of all, and to follow the mode is delightful when it can be done so easily and economically by following the styles pictured in our new Fashion Book. A chart accompanying each pattern shows the material as it appears when cut out. Every detail is explained so that the inexperienced sewer can make without difficulty an attractive dress. Price of the book 10 cents the copy.

**Is Now Important Industry**

**Cost of Raising Reindeer in Alaska is Very Low**

More than 250,000 reindeer distributed in 110 herds, are now being kept in Alaska, according to statistics and thirty-three and forty-five per cent thirty-three and forty-five per cent, annually. Within recent years, the raising of the animals has become an important industry. They are known as "three-way" producers, useful for food, clothing and for transportation, and in some sections, are supplanting the dog teams in hauling. The cost of producing average only about \$1 a year for each reindeer, while prices of \$10 to \$12 are realized in the butcher markets. Between 1918 and 1925 nearly 2,000,000 pounds of reindeer meat was exported from Alaska. The government is endeavoring to improve methods of control and management of herds and the grazing facilities. It is said that the country can afford pasturage for at least 3,000,000 animals.

### SICK CHILDREN LOVE "CASCARETS" FOR THE BOWELS

Give "Candy Cathartic" for a bad cold, sour stomach, constipation

Get a ten-cent box now.

Most of the ill of childhood are caused by a sour, disordered stomach, sluggish liver and constipated bowels. They catch cold easily, become cross, listless, irritable, feverish, restless, tongue coated, don't eat or sleep well and need a gentle cleansing of the bowels—but don't try to force a nauseating dose of oil into the little one's already sick stomach—it is cruel, needless and old-fashioned.

Any child will gladly take Cascarets Candy Cathartic which gently and never irritates or produces the slightest uneasiness—though they cleanse the little one's system, sweeten the stomach and put the liver and bowels in a pure, healthy condition.

Full directions for children and grown-ups in each package.

Mothers can rest easy after giving this gentle, thorough laxative which costs only 10 cents a box at any drug store.

The longest calendar year on record was 47 B.C. It continued 145 days.

By order of Julius Caesar, in order to make the seasons conform to the solar year.

Miller's Worm Powders will eradicate the worm evil that bears so heavily on children and is believed to cause many fatalities. They are an acceptable medicine to children and can be fully relied upon to clear the food channels thoroughly of these destructive parasites and restore the infant and young child to perfect healthfulness. They are an excellent remedy for these evils.

### Agriculture in B.C.

**Farming Population Has Doubled Within Ten Years**

There are 22,000 farmers in British Columbia and a total farm population of 90,000, according to the Hon. E. D. Pearson, Minister of Lands. He pointed out that the farm population has doubled in ten years and that within this time dairy products had risen from \$3,000,000 to \$10,000,000 in value. Total farm production rose during the ten-year period of 1915 to 1925 from \$31,000,000 to \$65,000,000.

**Exhausted from Asthma.** Many who read these words know the terrible strain upon health and strength, which comes in the train of asthmatic troubles. Many do not realize, however, that there is one true remedy which will usually stop the train. Dr. J. D. Kellogg's Asthma Remedy is a wonderful check to this enervating ailment. It has a complete record of relief to its credit. It is sold almost everywhere.

Consumption of hard liquor in Germany last year was only one-third that of pre-war times.

### The Best Laxative He Ever Tried

Mr. W. J. Dorton, New York, writes: "Sick headache, indigestion and constipation have troubled me for years. I tried everything but I can truthfully say your CARTER'S LITTLE LIVER PILLS is the most laxative I have ever used. I find that they are small, easy to take and their action does not pain me. They keep me regular and I want to tell you how I appreciate this purely vegetable medicine. Knowing, due to my experience in laboratory work that laxatives, containing Mercury, Calomel and other poisonous drugs are injurious."

CARTER'S LITTLE LIVER PILLS are sugar coated, small, easy to swallow, and everyone in the family can take them in perfect confidence as they are a doctor's own formula.

CARTER'S LITTLE LIVER PILLS in red packages 25c and 75c.

### SUNDAY SCHOOL LESSON

FEbruARY 12.

#### MAKING OUR HOMES CHRISTIAN

Golden Text: Let us love one another; for love is of God.—1 John 4:7.

Lesson: Ephesians 5:25 to 6:4.

Devotional Reading: 1 Corinthians 13:1-7.

#### Explanations and Comments

The Duty of Husbands to Love Their Wives. 5:25-33.—"Husbands, love your wives, even as Christ loved the church, and gave himself for it." Paul sets a high standard for a man's love for his wife when he declares that it should correspond to the self-sacrificing love of Christ for the church, that it should be capable of suffering and dying for her as Christ died for the church.

"Would you love the laws that should reign in households, whose daily transgressions annoy and mortify us and degrade our household life, we must learn everyday with sacrifice. Good manners are made up of petty sacrifices."—(Emerson.)

You go on to state the object of Christ's sacrificial death—the setting apart and consecration of the church by cleansing of guilt by baptism "in accordance with the divine promise (or, on the ground of the promised word of the Gospel)," with a view to its glorious presentation to himself as a sinless church, holy, without spot or blemish. Even as Christ loved the church, so ought husbands to love their wives. He that loveth his wife loveth himself.

"Although the husband's love for his wife may be compared to what is called his love for himself, inasmuch as it leads him to regard her welfare as his own, and to feel all that concerns her as if it concerned himself, the two loves are certainly different in their essence. There is no emotion in self-love; it is the product of reason, not of feeling; and it is a 'law' of man's nature, not in the sense of obligation but in the sense that it necessarily belongs to a rational creature. The basis of conjugal love is altogether different, and is to be found, not in the rational part of man's nature, but in the affections. The love is reinforced by reflection, and made firm by the sense of duty; but it can never become a merely rational regard for another's happiness, as 'self-love' is (or one's own)."—(F. K. Abbott.)

**IF STOMACH IS TROUBLING YOU**

Instantly! End Indigestion or Stomach Misery with "Pape's Diapiesin"

As soon as you eat a tablet or two of "Pape's Diapiesin" your indigestion is gone! Heavy pain, heartburn, flatulence, gases, palpitation, or any misery from a sour, acid stomach ended. Correct your stomach and digestion for a few cents. Each package guaranteed by druggist.

Many English people caused their friends some thought and uncertainty by sending them a Christmas card in the form of a cross-word puzzle which, when solved reveals the identity of the sender.

#### Athletes use Minard's Liniment.

Alberta Oil Production

Alberta's petroleum production will exceed 200,000 barrels for 1926, when all returns are in, according to Government estimates. This compares with 153,000 barrels in 1925. The production of Royalty No. 4 well, in Turner Valley, exceeded 100,000 barrels for the year up to November 30th, the average production being 528 barrels of naphtha per day.

There isn't anything chicken-hearted about the game rooster.

Relieve Asthma with Minard's Liniment.

#### Adopt English Word "Home"

The French have adopted the English word "home." The lack of its equivalent in the French language always has been remarked by English speaking people, with an air of patronizing pity. Department and furniture stores now advertise articles for "the home," and newspapers use this word as a caption for domestic and women's news.

### A DOCTOR'S PRAISE

#### A Noted Doctor Strongly Endorses Dr. Williams' Pink Pills

The test of any remedy lies in its acceptance and employment by the qualified medical practitioners. No less an authority than Dr. Andrew Amiel, physician to the Papal hospital, writes: "For several years I have made use of Dr. Williams' Pink Pills in my work and I have always found them efficacious in the treatment of disorders due to impoverishment of the nervous system, anaemia and neurasthenia, stomach weakness, retarded development in young women, and irregularities. There is no lack of tonic remedies, but in my experience no one of them manifests a superior efficacy to that of Dr. Williams' Pink Pills."

No more conclusive evidence of the value of Dr. Williams' Pink Pills could be asked for, given, than is found in the above endorsement of this noted European physician. Besides this, however, this medicine has enjoyed a world-wide public confidence for more than a third of a century and has brought relief to thousands and thousands of weak and suffering people.

Try Dr. Williams' Pink Pills for anaemia, rheumatism, neuritis, nervousness and stomach trouble. Take them as a tonic if you are not in the best physical condition and cultivate a resistance that will keep you well and strong. You can get these pills through any druggist, or by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

#### Hebrideans for Alberta

Fifty Hebridean and Northern Irish families will be established in a new colony at Saddle Lake, Alberta, early this spring. This will be the second settlement of its kind in this province—the first having been established north of Vermilion. Buildings are now being erected on fifty farms at Saddle Lake and it is expected that new arrivals will take over holdings there just as soon as necessary arrangements can be made.

Warden—"What! You back again!"

Convict—"Yes, any letters or parcels for me?"

### Became So Weak Could Hardly Stand

Mrs. Wm. Palmer, Tomahawk, Alta., writes:—"Last spring I had a long spell of sickness and became so weak I could hardly stand. I could not sleep at night as the least little noise would wake me up. I tried blood tonic and other nerve pills, but they did me no good, and I was getting worse. I wrote my mother about my condition, and she sent me three boxes of

**MILBURN'S HEART NERVE PILLS**

After the first box I was feeling much better, so I kept on until I had used the three boxes, and now I feel as well as ever. I did not know I was young girl."

Price 50c a box at all dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

## NEGOTIATE WITH CHINA TO BREAK THE DEADLOCK

London.—After a lengthy cabinet meeting, the British Government called fresh instructions to Owen St. C. O'Malley, the British chargé d'affaires at Hankow. In an effort to break the deadlock which developed in the Anglo-Chinese negotiations there when the Cantonese Foreign Minister, Eugene Chen, questioned the right of Great Britain to dispatch a military force to Shanghai.

Short of technicalities, it is admitted in competent official quarters that the whole Chinese situation is at a standstill over the issue of the troops now on the way. There is no likelihood that the expedition will be recalled but there is a possibility that it may be partly diverted to Singapore and Hong Kong, or that an agreement may be reached with the Chinese authorities regarding its length of stay at Shanghai.

The Foreign Office maintains that the negotiations between Charge d'Affaires O'Malley and the Chinese minister have not been broken off, explaining that Chen has merely refused to sign the draft agreement dealing with the future status of the British concessions at Hankow and Kiukiang, where the recent rioting occurred.

This refusal has given the Anglo-Cantonese discussions a new turn with respect to the general British proposals, which were first announced in a Christmas memorandum to the powers, amplified by Sir Austen Chamberlain's Birmingham speech. These proposals dealt with the whole problem of China's relations with Great Britain, including the questions of extra-territoriality, customs, missionaries and other important questions.

## Start Anti-Religious Campaign

Chinese Nationalists Destroying Idols Says Missionary

New York.—Chinese idols dating back to the remote past and tabling symbolizing China's historic ancestral worship are being destroyed in southern China as part of a Nationalist campaign against religion similar to that of Soviet Russia, says Dr. N. Bercevit, prohibition missionary doctor on the island of Hainan, China.

This anti-religious campaign, Dr. Bercevit declares, is paralleled by a movement among the youth of China that respects neither its ancient religions nor Christianity, but preaches a philosophy of materialism and "absolute freedom for every one in everything."

Writing from his station in China to the Presbyterian Board of Foreign Missions, Dr. Bercevit says that the anti-religious movement was directed by the Nationalist government in Canton which has for its avowed object the destruction of spiritual things of all things among the people.

## Loss on Telegraph Service

British Post Office Department Finds Telephone Competition Strong

London.—The Government's loss on operation, through the post office department of telegraph services during the past year, is about £1,500,000, partly due to the strong competition of the telephone service, which is also a branch of the Government's activities. The traffic in newspaper telegrams has resulted in a loss of about £250,000 yearly. The British press has lately adopted a leased wire policy, paying wire rental instead of word rate charges.

## Pension for Former Premier

Paris.—Antoine Meunis, after thirty-five years service to his country as premier, deputy and senator, is destitute at the age of 81. Premier Poincaré, learning indirectly of his plight has introduced a bill in parliament which would grant him an annual pension of 25,000 francs.

## Quake at Shanghai

Shanghai.—The city was alarmed by a fairly severe earthquake recently. Earthquakes are most unusual in this district. No damage has been reported.

W. N. U. 1607

## Urges Colonization of North

Canada's Hinterland Should Be Mapped Says Frank Henderson

Ottawa.—"At the present rate of progress it will take 70 years to explore Canada's rich Northland to the extent of showing its principal features on our maps," Frank B. Henderson, D.L.S., President of the Dominion Land Surveyors' Association, told the convention in Ottawa in an address in which he urged Dominion surveyors "who made possible the orderly settlement of the fertile white lands of Western Canada to use their utmost efforts to speed up the colonization of the almost totally unexplored and unexploited hinterland of Canada."

In this vast northern country there is, said Mr. Henderson, a task of colonization and development greater and more complicated than that which faced Dominion land surveyors in the West.

The first requisite to development, Mr. Henderson pointed out, is adequate maps. As to what a good map would show, he quoted the fact that a recent mapping operation had shown that within a radius of 35 miles of one Northern Ontario town there are some 3,500 hidden lakes.

How is a man ever to penetrate such a country without maps?

## Fewer Forest Fires

Canadian National Railways Use Measures to Protect Forest Areas

Winnipeg.—A saving of more than \$18,000 in damages resulting from fire along the lines of the Canadian National Railways during 1926, as compared with the previous year, has been reported by W. A. Kilby, chief of forest protection for the company. This improvement is attributed by Mr. Kilby to increased efficiency and an educational campaign among the railway employees during the past year.

On the Western region, including lines in British Columbia, where fire hazards were great during the spring, 9,960 acres were burned over with an approximate monetary loss of \$11,650 as compared with \$25,285 acres and \$61,896 in 1925. More than 4,000 miles of fire guards were constructed on the Western region in 1926 and every precaution was maintained to prevent the ignition of fire by sparks from locomotives.

## Good Revenue From Fines

Many Prosecutions in Vancouver Under the Motor Act

Vancouver, B.C.—Prosecutions under the Motor Act and city traffic by-laws, strictly enforced during 1926, in Vancouver, when 6,572 cases were heard in the special automobile court, presided over by Magistrate J. A. Findlay. On 1925, the number of cases was 2,973.

Last year, fines aggregating \$25,531 were paid by motorists who were convicted of minor violations of the Motor Act, while 199 drivers were convicted of driving to the common danger, and contributed an additional amount of \$5,650.

## Mexican Soldier Kills Four

Member of Military Guard Goes Suddenly Insane

Mexico City.—A soldier, one of the military guard on a Laredo-Mexico City passenger train, suddenly became insane when the train was nearing Gomez Palacio, state of Chihuahua. He seized several rifles, one after the other, and began shooting promiscuously. He killed four and wounded two of his fellow soldiers before he was subdued.

No passengers were hurt but both foreign and Mexican passengers were badly frightened, for they thought it was a bandit attack.

## C.P.R. Hotel for Toronto

Toronto.—Official announcement that the Canadian Pacific Railway has purchased the Queen's hotel, fronting the new Union station, and will erect on that site a thousand room hotel, was made by President E. W. Beatty, of the C.P.R., here today.

## Duke of York Initiated

H.M.S. Renown.—The Duke of York, King George's second son, now can properly call himself an old seadog. He was with his dullest, duty initiated into King Neptune's kingdom as the Renown crossed the equator in the Pacific en route to Australia.

## 10 EARTHQUAKES OCCUR YEARLY IN EASTERN CANADA

Ottawa.—Dominion land surveyors from all parts of Canada assembled here for their annual three-day convention.

A feature of the proceedings was the presidential address by F. D. Henderson, in which he reviewed the general conditions in Canada and emphasized the fact that immense areas remain unsurveyed. The work of mapping the mineralized areas of Northern Canada would take many years.

Hon. Charles Stewart, Minister of the Interior, speaking at the annual luncheon, strongly deprecated the talk of class organization.

The difficulties to be solved as regards Canada will never be cured he said "by the false doctrine of class organization."

"He urged that individual effort must be put forth and it is mainly on that the citizens of Canada must depend."

"There are at least ten earthquakes a year in Eastern Canada," Ernest A. Hodgson, seismologist of the Dominion Observatory at Ottawa told his convention. "We know there are at least that many. Really sensitive instruments possibly would indicate something like a hundred. We do not know but these earthquakes are as a rule nice gentle ones, which occur at fairly regular intervals." He explained that the Montreal Mountains is an extinct volcano.

"The conditions in Quebec," said Mr. Hodgson, "are not those of California, but as the seismic centres are determined, it would be the essence of good judgment to avoid them as sites for commercial enterprises which form so large a part of the present or potential wealth of the province."

## Death of Lt. Col. Munro

Winnipeg.—Lt. Col. William Alred Munro, D.S.O., is dead here after a lengthy illness. He was 56 years old.

## MASSACRE SURVIVOR TELLS EXPERIENCES

Typical Cree Indians who participated in the massacre at Frog Lake.

An unique and intimate record of the massacre at Frog Lake in 1885 at the time of the Canadian Northwest Rebellion has been given to Canadian history by William Bleasdel Cameron, the sole white survivor of that appalling disaster. In a volume recently published by the Hyeron Press, Toronto, Mr. Cameron recounts in vivid detail the events which led up to the attack, the bloody progress of the massacre, and his two months experience as prisoner of the Indians. "The War Trail of Big Bear" is not only outstanding for its value as a historic record; it is a remarkably powerful and dramatic narrative.

Mr. Cameron was a young Hudson's Bay Co. agent at Frog Lake when the massacre occurred. He describes the general carelessness of the Indians preceding the Rebellion when it seemed as if the whole Middle West might

## Saskatchewan Co-Operative Elevator Co.

Meeting to be Held in Regina to Wind Up Affairs of Company

Regina.—Arrangements for the winding up of the Saskatchewan Co-Operative Elevator Company, including the appointment of inspectors to act with the official liquidator on behalf of the shareholders of the company, will be made at the annual convention of delegates to be held here Wednesday, March 2.

Each of the 451 locals of the company is entitled to send one delegate to the convention and shareholders throughout the province are now busy electing delegates at local meetings.

## Willing to Make Exchange

Order-in-Council Permits Settlers to Transfer From Barren Lands

Regina.—According to the current issue of the Canada Gazette, the Governor-General-in-Council has ordered that certain settlers in the Moose Jaw land office district, now on the verge of abandoning their land on account of its inferior nature, be allowed to exchange their farm holdings for certain lands now used for grazing purposes.

In the case of homesteads now occupied, the settlers will be required to reconvey title to the Crown.

## Reclaiming Land in B.C.

Vancouver.—Between 150 and 200 families will participate in a "back to the land" movement near Ladner, B.C., at the mouth of the Fraser river as a result of the opening up of a large area of land. One of the men behind the scheme is Leon J. Ladner, Federal member for Vancouver South, whose parents were among the first settlers in the Fraser Valley.

## Takes Over Duties This Month

Ottawa.—Hon. Vincent Massey, Canada's first minister to Washington, will, it is expected, take over his duties there early in February. He will be replaced by President Coolidge shortly after his arrival.

## USE PLANES TO EXPLORE WATERS OF HUDSON'S BAY

Ottawa.—A full inquiry into navigation conditions on Hudson's Bay and Straits, mainly by means of aeroplanes, is to be made by the Government this summer and a commission which has just been appointed to direct the work has held its organization meeting here. It consists of N. B. McLean, of the staff of the St. Lawrence ship channel, who has 25 years' experience with ice conditions; Col. James Scott, of the air service, and E. B. Kost, engineer of the railway department. Mr. McLean is to be chairman.

Three departments, marine, defence and railways are interested and represented. It is intended to establish three air bases at points on the Bay and Straits and at least six planes will be utilized, in addition to patrol boats and wireless stations, ice, tidal and all other conditions affecting navigation will be noted daily throughout the year.

The work will start July 1. Among other things the order-in-council creating the commission recites that: "It is important that early consideration be given the questions relating to the navigation of Hudson Strait, in order that an effective program may be adopted, and the completion of the work itself so timed as to be available on completion of the official test-development proposed for the Hudson's Bay harbor terminals."

## Learned Nothing From Industrial America

System Not Greatly Ahead of England's is Report of Commission

London.—The report of the government industrial commission which went to Canada and the United States last fall, The Westminster Gazette says, will declare that industrial America has few important lessons to teach British industry, that American prosperity is due to a temporary boom, that wages are admittedly high but so is the cost of living and that industrial co-operation, although good in America, is not greatly ahead of the system employed in England.

Ernest Bevin, general secretary of the Transport Workers' Federation, one of the commission, The Westminster Gazette adds, will issue a minority report as he profoundly disagrees with some of the findings of his colleagues.

## Suggests 'Plane Survey Of Hudson Straits

Intensive Examination Recommended by Minister of Railways

Winnipeg.—The Ottawa correspondent of The Manitoba Free Press says:

"Intensive study of Hudson Straits in 1927 by a fleet of hydroplanes is being strongly recommended to the Government by Hon. Charles Dunning, Minister of Railways."

"If his recommendation is accepted the Royal Canadian Air Force, in co-operation with the Canadian Navy, will carry out an intensive examination of the Straits."

"The government departments concerned have prepared an estimate of the cost of such an investigation and have placed the total at \$900,000."

## Super Cinemas for London

London.—The Evening News says plans are afoot to provide London with at least 20 new super cinemas within a year. The houses will rival those of New York in completeness, will seat more than 62,000 people, and cost over \$2,500,000 or about \$12,125,000. This development, the paper says is the result of London business men entering the motion picture field. Other big cinema projects are contemplated.

## Bandits Use Machine Gun

Chicago.—Blocking the only convenient exit with a machine gun, a gang of robbers ordered more than 100 bettors in a handbook establishment to lie face down on the floor while they escaped with \$10,000 here. The robbery was a mere abridgement while their companions, armed with the automatic gun, led the escape.

## Here and There

During 1926, the Canada Colonization Association settled 734 families on 168,094 acres in Western Canada. \$9,878 acres of which were in the province of Manitoba.

Plans have been completed for the World's Poultry Congress, to be held in Ottawa from July 27th to August 4th. More than thirty countries will be represented and the number of delegates is expected to reach 6,000.

Shanghai is at the present time operating more trolly buses, carrying more passengers per mile of route, and charging a lower fare in terms of gold wares, than any other system in the world.

The champion Jersey cow of the world, an out and out British Columbia product, is to go on tour according to the directors of David Spencer Limited of Vancouver, who stated the champion would arrive at the Canadian Pacific Express yards shortly.

Reports indicate that the many dairy companies in Nova Scotia have had a most successful year. One company reports that they manufactured well over 100,000 pounds more butter than in 1925. This increased production was valued at over \$50,000.

Developments in bacon-bag raising in Nova Scotia and particularly in the Annapolis Valley as a by-product of the dairy industry, is already an assured success. In 1926, 21 swine clubs were functioning successfully in the Province. Of these eight operated in the Dominion Atlantic Railway territory.

The first fish net factory to operate in Canada is being started here by the Canadian Fish Net Co., Ltd., financed by Canadian capital and employing Canadian labor. Hitherto the nets used by Canadian fishermen have been imported from Europe and the United States, which has at times entailed heavy losses owing to late deliveries.

Grain left Montreal for seventeen different countries in the 1926 season. Great Britain imported the heaviest extent, followed in order by Holland, Germany, Belgium, Italy, France, Norway, Greece, Ireland, Portugal and South Africa. Great Britain took 39,291,763 bushels or 31 per cent. of the total exports from the Port, being also the heaviest purchaser of oats. Norway and Holland were the two largest buyers of rye.

The grain harvest of 1926 has left more money in the country than the greater harvest and somewhat higher prices of 1925, according to N. M. Paterson, president of the Paterson Steamship Company, and owner of a hundred country elevators in the West, with one other city elevator now being built at a contract cost of \$800,000 at Fort William. Mr. Paterson, who was interviewed at the Windsor Hotel in Montreal recently, having arrived from Winnipeg, is travelling with his father and mother, wife, six children and two nurses, by Canadian Pacific route, land and steamship, to England with a view to staying at Bournemouth for the next three months.

Steamship companies brought approximately 165,000 passengers to the Dominion in 1926, an increase of nearly 48,000 over the previous years. Third class passengers, the majority of whom were immigrants or new settlers, accounted for over 123,000. An outstanding feature of travel has been the development of tourist third class accommodation. Approximately 7,100 passengers of this kind were carried eastbound across the Atlantic from Canada and 8,650 transported westbound during 1926, making a grand total of this kind of travel of 15,750 for the year.

## His Majesty's Choristers Tour Canada

Boys of the Westminster Abbey Choir with their master, Sydney H. Nicholson, organist of the Abbey, who are touring Canada under the auspices of the National Council of Education, together with the Very Rev. the Dean of Windsor, the Rev. A. V. Baillie, chaplain to the King, Rev. Edmund H. Fellows, director of the choir of St. George's Chapel, and Sydney H. Nicholson, organist of Westminster Abbey.

The official visit to Canada of the gentlemen of His Majesty's Free Chapel of St. George, in Windsor Castle, and the boy choristers of Westminster Abbey, accompanied by the Very Rev. the Dean of Windsor, the Rev. A. V. Baillie, chaplain to the King, Rev. Edmund H. Fellows, director of the choir of St. George's Chapel, and Sydney H. Nicholson, organist of Westminster Abbey, and Master of the Choristers, is made with the special approval of His Majesty the King. The visit of the choir, which is now touring Canada from Fredericton to Vancouver and return, on the All-Red C.P.R. route is more than a mark of inter-empire courtesy; it is a gesture that should do much to help the fuller realization of possessions common to Canada and Great Britain.

The choir is here under the auspices of the National Council of Education, which since its inception in 1919 has continually emphasized the importance of the place of music in Education. This tour is essentially a part of the Council's programme designed to stimulate public interest in music as one of the most powerful influences in the life of both the individual and the nation.

The Choristers from Westminster Abbey and St. George's Chapel, to sing their way through Canada without fee or recompense of any kind except the applause they will gain, have a history going back to a day when the great-grandfather of Columbus was a humble Genoese, watching boats sail out and believing that if they went too far they might topple over the edge of the world. So Canada must feel comparatively young in the knowledge that the soft-footed Indian was still emperor of the prairie, when the choristers first sung to the order of Edward III in the chapel of St. George at Windsor.

The glory of the Dominions is in their future, but England's greatest glory is in the long story that runs back through the centuries, and that story is told almost completely in the histories of Westminster Abbey and St. George's Chapel of which these visitors are the ambassadors.

It is interesting to think of the three parallel streams, I, II and III, creating the Order of the Garter in St. George's Chapel, Columbus still unborn and his great-grandfather

perhaps seeing sail in the support of Genoa, Canada still in the haze of the undiscovered, and while these two latter scenes change dramatically, the choristers of St. George's have still gone on with their services, symbolizing the continuity and honor of the twenty-six Knights of the Garter. The gentlemen of St. George's and the boys of Westminster lay clerks of the Chapel at Windsor are those who sing the evening and morning services in the chapel; and in the more private services associated with the life of the Crown and the Order of the Garter. They also provide the music in the Private Chapel when Their Majesties are in residence at Windsor Castle.

The Dean of Windsor, Dr. A. V. Baillie, who will give lectures during the tour, at Windsor Castle, the Chapel of St. George and Westminster Abbey, is one of the outstanding figures in the ecclesiastical life of England. He is the grandson of Queen Victoria and a nephew of Lord Elgin, former Governor-General of Canada. In addition to being chaplain to the King, he is also Registrar of the Order of the Garter.

Dr. Edmund H. Fellows will lecture on Elizabethan and English Church music. He is the foremost living authority on music of the Tudor period, as witness his monumental edition of the English Madrigals which he has completed in 36 volumes.

An organist of Westminster Abbey, the choir of Mr. Nicholson have been an inspiration, not only to the habitual worshippers at the Abbey, but also to the vast body of visitors to that shrine from all over the world. He is the author of "British Songs for British Boys." During his tour he will conduct a number of concerts, especially at St. George's and Garter, which St. George's will largely figure.

Canada's own opportunity to hear the best of English church and Old English part music, while a small number of men is reached in choral singing, is a privilege unobtainable in any part of the world.

## Mothers Treat Colds The New "Direct" Way

No Longer Necessary to "Dose" Children With Internal Medicines to Break Colds.

Children's diseases are easily upset by too much "dosing." Vicks VapoRub being ex-  
posed does not upset little stomachs.

At the first sign of a cold, sore throat, or any other cold trouble, apply Vicks freely. There is nothing to swallow—you just "rub it on."

### CHAPTER XXVII

#### Jealousy

The wide grounds of Villa Annetto, reaching down the slope of Cap Martin to the sea, began to assume new perspectives of their transformations. The speculative group of workmen that had begun, two weeks before, to place their stakes, had now become a grey crew that numbered scores.

Pavilions, pergolas and stretches of polished dance floors bordered by dark potted palms brought from Cannes were taking definite shape. Graceful columns, slender and carved into semblance to fairy spires rose in companies that later were to be hung with trailing green and hidden lights.

Joanna and Brandon, strolled through the lawns on their customary daily inspection. Workmen touched their caps to the Golden Girl by their curiosities shining in their eyes. To them she was of more importance than the preparations they were making for the fête of which the entire Riviera talked. For, a one night's whim of this strange, restless girl, their hands erected an arboreal garden to be covered, for this night with the choicest roses culled from the garden of the Monegasques in the Condamine.

The cost of the roses alone would equal far more than the year's pay of any workman. Around a miniature lake a carpet of lemon wood was being laid, and for the surface of the lake, that would be pumped into the lake, a canopied bark such as a Cleopatra might have envied was being hewed from cedars. This cost, too, would have sent the children of a family to

## Does Weakness Detract From Your Good Looks?

—Photo by Michèlewaite

Mr. Thomas Chapman of 3 Somerset Place, Toronto, Ont., whose picture appears here, said: "Dr. Pierce's Favorite Prescription was very helpful to me and I know it to be the very best medicine a woman can take when nervous and run down. I had a break-down—my nerves were so upset I could not sleep. I also suffered from nervous indigestion, but after taking Dr. Pierce's Favorite Prescription I did not suffer with indigestion and I could get a natural night's rest, which I could not do before. No woman can appreciate what a wonderful medicine the Favorite Prescription is until she gives it a trial."

All druggists. Tablets or liquid.

Write Dr. Pierce, Free, Jayland Hotel, Buffalo, N. Y., for free advice.

## Linking Empire By Beam Radio Phone

Successful Experiments With Canada Make Plan Possible Says Marconi

William Marconi, describing the rapid development of the beam system during a speech at London, said that recent experiments between England and Canada proved it was possible to maintain easily a clear simultaneous telephone conversation and high speed transmitting and receiving telegraphic messages without the slightest hindrance.

This meant, he explained, that it will soon be possible to establish such simultaneous services with Australia, India, South Africa and other distant countries served by beam stations and as both services use the same plant communications will be cheaper.

## CHILBLAINS

Zam-Buk soon alleviates the redness and swelling, kills the itching and soothes the pain. Where skin is broken, Zam-Buk is doubly valuable because of its antiseptic and anesthetic power.

**Zam-Buk**

as to whether she had kicked him, defied him, or merely teased him. "That is an unpleasant sentiment!" he said, "I, at least, of all your conquests, have asked nothing of you. I shall, of course, ask much, but not too much. And I promise I shall respect your gift, whatever it may be. You remember I promised that a long time ago."

"And have bided your time. Why?" "I have been waiting, more or less patiently, until you had found yourself. You see I preferred not to take the advantage of you. Others have, I believe."

Now she smiled up at him, but wistfully. "You must have had great patience, wait!" she exclaimed. "It has been terribly hard for me to find—"

"—not I mean it! And the worst of it is, I'm still hunting." He waited for her to acknowledge his concluding words—that he would not, as he thought others had, take advantage of her. But she ignored that. Before he was ready to speak, she touched his arm and then raised her hand, like a princess bounding her domain, like a woman in the whole expanse of the Annetto acres.

"Perhaps I'll find something here, the lights are still and the rooming, and the people have come. Or perhaps you will. Who knows?" Suddenly she was serious. "It will cost enough," she added, "at any rate. Yvonne and I went over the estimates this morning. Mr. Eglington will be shocked when the bill comes. More than a hundred thousand dollars, I'm sure. You have made me be very extravagant, you know."

"Whatever you do, must be done well," he retorted. "Isn't that a betting ambition I have understood, you see, that you look upon your money as a means to excitement. You will have it, when your fête is in full swing, and the memory of it will be just exhilarating. Why should one bother with costs?"

"Why, indeed?" she agreed briefly. They walked across to the Trianon summer house, skittered it, and came to the most pretentious of all the temporary structures being erected on the estate. Around an open space the slender columns of wood that had been especially made were being set so close to form an almost unbroken wall like the pillars closing in the name in some great outdoor temple. The columns stood in two rows, forming a continuous pergola over a wide path that completely skirted the enclosure.

Inside the columns gardeners were busy grading the lawn so that it sloped gently, as a theatre auditorium, to a broad stage that had been raised on short pillars, fixed like piles, into the ground. Over all the workmen were hanging a latticed canopy of trellis.

For whatever entertainment was planned for the spacious stage, around which wings and curtain frames were being placed, fully 300 spectators might sit comfortably between the

## FACE COVERED WITH PIMPLES

Surrounded by Blotches,  
Suffered Three Months,  
Cuticura Healed.

"My face was covered with sore pimples that were surrounded by white blotches that itched and burned causing me to scratch. Scratching caused eruptions and my face was disfigured. For three months I suffered from this condition."

"I used several remedies without results. My mother advised me to use Cuticura Soap and Ointment so I purchased some. After using them a short time the terrible itching and burning had been relieved in three months I was healed."

(Signed) Miss Mandy Siren, Redway Center, Alta.

Use Cuticura for every-day toilet purposes. Rubs with Soap, soothes with Ointment, dries with Cuticura. Sample Soap Free by Mail. Address: Cuticura, Dept. 10, P.O. Box 10, Portland, Me. Cuticura Ointment 25c. Cuticura Soap 25c.

pergola walls. For that many folding chairs were already piled under a canvas blanket near by.

When they stood between the pillars and saw that this structure was further advanced than any of the other preparations, Brandon asked:

"You still insist upon keeping this part of your program a secret?"

"Yes," she replied; "you shan't know anything about this, or what I'm going to do here, until you come in under the blossom laden room and take your seats. I'm having great fun planning my little surprise."

"Am I forbidden to speculate?"

"You are not, but you will be unsuccessful. It's to be my idea of the climax. It's asked everyone I know to remember the most sensational things other than the Annetto made to make their fates remembered. I know about them all, from the feast presided over by the Indian rajah who knows those lovely lady the carpet of diamonds that was Naumal's nuptial rug, to the Moor who made a lake and had his servants suddenly throw all the women into it. I want to excel them both. There must be something startling by which to remember the Golden Girl's fête." She brushed his arm with her fingers. "Mustn't there be?" she asked.

(To Be Continued.)

## BABY'S WELFARE DURING FEBRUARY

Should be Most Carefully Guarded by All Mothers

February is one of the hardest months of the year on little ones. It is a month of cold, flu, and diphtheria that prevent the mother taking her baby out for the fresh air so necessary to his welfare. Baby is consequently confined to the home. More often than not the rooms are over-heated and badly ventilated and the little one catches cold or grippe. What is needed to keep the baby well is a gentle laxative that will regulate the stomach and bowels; banish constipation and indigestion and in this way will either prevent or break up cold and grippe. Such a laxative is found in Baby's Own Tablets. They are sold by all druggists in airtight containers and they are guaranteed to contain neither opiates or other harmful drugs. They never fail to be of benefit to little ones and may be given to either the newborn babe or the grown-up child.

Baby's Own Tablets are sold by all dealers in medicine or may be had by mail, post paid, at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

## Little Helps For This Week.

Be thou an example . . . in word, in conversation, in charity, in spirit, in faith, in purity.—1 Tim. iv. 12.

For no one doth know  
What he can become;  
What light, strength, and beauty may  
After him go;

Thus onward we move,  
And save God above,  
None guesseth how wondrous the journey may prove.

Others are affected by what I am, and say, and do. And these others have also their sphere of influence. So that a single act of mine may spread in widening circles through a nation or humanly.

William Ellery Channing.

The doors of your soul are open on others, and through you, simply to be in this world, whatever you are, to exert an influence—and influence compared with which mere language and persuasion are feeble.

Horace Bushnell.

## U.S. Motorists Spend Millions

Automobile tourists from the United States entering Canada in 1924 left a gross revenue in the Dominion of about \$194,000,000, according to a careful estimate made by A. W. Campbell, Dominion Commissioner of Highways. In 1925 the estimated gross revenue from this tourist traffic was \$188,555,540.

For Scalds or Burns.—Dr. Thomas' Electric Oil is a standard remedy for the prompt treatment of scalds and burns. Its healing power quickly soothes the pain and hastens recovery from the injury. It is also an excellent remedy for all manner of cuts, blisters and sprains, as well as for relieving the pains arising from inflammation of various kinds. A bottle in the house and stable saves many a doctor's and veterinary's fee.

Words to the number of 500 per minute can be sent over a new cable now working between London and New York.

Doctors' vouch for Minard's Liniment.

## "See What I Did for 30 cts!"

You needn't be any longer wear the latest colors. Just keep your clothes bright and new by home dyeing! It's easy, and so easy to get perfect results. You can Diamond dye anything. Take out some old, faded suit or dress and have it the season's fashionable shade tomorrow! Restore dull drapes, scarfs and spreads. You can work wonders with a few, inexpensive Diamond Dyes (true dyes). New colors right over the old. Any kind of material.

Makes it NEW for 15 cts!

## May Erect Power Plants

Saskatchewan Investigating Possibilities of Producing Electrical Energy

The Saskatchewan Government has appointed a commission to enquire into the feasibility of erecting power plants throughout the province. The personnel consists of Messrs. L. A. Thornton, of Regina; Arthur Hitchcock, of Moose Jaw; Prof. A. H. Greig, of Saskatoon; and R. N. Blackburn, chief mechanical superintendent of the province. The Government considers the present move advisable, bearing in mind the recent and prospective growth of the province and the advancement in the science of producing and distributing electrical energy. The discovery and survey of water powers within the province are such as to warrant the present undertaking, it is said.

It Bids Pain Began.—When neuralgia racks the nerves or lumbago cripples the back is the time to test the virtue of Dr. Thomas' Electric Oil. Well rubbed in it will still the pain and produce a sensation of ease and rest. A trial of it will establish faith in it.

Inspector—"What do you do to keep the milk pure?"

Milkman—"Why, I sterilize the pump morning and evening."

Teeth resemble verbs: they are regular, irregular and defective.

Nothing Like It to Relieve Colds

In formula and action, Buckley's Mixture is different from all other remedies. It instantly kills the cold, relieves the cough, soothes the inflamed parts. The result is that follows. The cold is melted in 40 minutes in the worst case. It is the only remedy in every home. Your druggist sells it. Write for free literature to Dr. W. C. Buckley, Limited, Toronto, Ont.

## Stork Brings Young Goos.

The stork made a successful entry into our hamlet on the afternoon of Monday last, delivering a beautiful daughter to Rev. and Mrs. Goos at the Manse here.—Hay Lake Times.

## Railway Time Table.

Going east—Monday, Wednesday, Friday at 6.27 a. m. Sunday, Tuesday, Thursday, Saturday at 5.15 a. m. Going West—Sunday, Tuesday & Friday afternoons at 1.30. Every morning at 13 minutes to 1.

## Muir Lake Community Concert and Dance Friday, February 18th.

## Calendar

February—  
13—Walter League's Social Evening.  
14—Election of Councillors for Stony Plain.  
14—Masquerade dance at Holborn Hall.  
18-20—Conference of the Walter League of Alberta and B. C. in St. Matthew's Schoolhouse.  
18—Concert and Dance at Muir Lake.  
19—Val Mayer's auction sale, at Golden Spike.  
25—Girls' Club Concert and Dance, Wudel's Hall.  
26—Elections for Inga Councillors.  
28—Mecklenburg, eye specialist, at Stony Plain.  
March 1—Muskrat season opens.

## Stony Plain and District.

On Sunday, Feb. 6, to the wife of Mr. John Armbruster a son.

At the Lutheran service held in Stony Plain on Sunday last, by the Rev. E. Eberhardt the infant son of Mr. and Mrs. Carl Goerz was baptised.

Mr. Lory resumed his duties on Monday at the Hardwick General, after being confined to his residence for ten days thru illness.

At the local Court, Monday, two men were fined for breaking quarantine. James Gladue, from Callahan, was fined for trapping rats out of season.

The Graden outfit is shipping several cars of baled wheat straw west, for the pack horses wintering at Jasper Park.

Concert and dance February 25, in Wudel's hall, by the Girls' Club.

Saturday's train from Vancouver came thru 18 hours late. A party of theatre-goers who wished to see Al Plunkett's show, at the Empire, were disappointed.

A match between local players, which had been looked forward to by local curlers for a long time was pulled off Friday evening on local ice. This was the last round of the series for the Tankard, and had an all-man team on each side—Geo. Oppertshausen vs. the President's quartet. After the first few rocks had been pitched, it was a foregone conclusion the prizes would go to the Oppertshausen crowd, and they received hearty congratulations on the conclusion of the game. The winning team consisted of: J. F. Clarke, Max Kast, E. C. Schmidt, and Geo. Oppertshausen skip. The score was 16 to 5.

A story was brought to town Saturday afternoon by a Blueberry farmer about a shooting affair in his district. On investigation it was found that three rabbit hunters had passed down the road near a sluck, and seeing it boarded up and thinking it empty, had fired a couple of shots at a window. They scampered off at a lively gait when Mike Duborski, who was occupying it temporarily, came out and gave the command to "Cease firing!"

Mr. Val Mayer, of Golden Spike, is holding a sale of his stock and machinery on Sat. Feb. 19.

The Highlander Coal Mine at Bright Bank is now in operation on a more extensive basis than before. The product is good and reasonably priced at \$2.25 a load.

The SE gr. 1, 53, 28w4th will be cropped the coming season by Mr. R. Rivest.

Mr. Charles Schwindt has rented the SE gr. 25, 53, 15w5th.

The SE 34, 51, 1w5, purchased recently from Mrs. Kincart by Mr. Wm. Masser-vitch of Spruce Grove, has been rented by Mr. Herbert Heichen for the coming season. The farm east of the Grove which Mr. Heichen is vacating has been taken by Mr. Kaer.

Holborn - U. F. W. A. are holding a masquerade dance at Holborn Hall on Monday Feb. 14. Good prizes. Barnes orchestra.

## Spruce Grove News

Services were held in St. Joseph's Church last Sunday morning by Rev. C. Keenan.

The beer-parlor at the Spruce Grove Hotel was reopened on Thursday last, the 3d inst.

'Tis rumored in society that Dave Bell, our popular garage-man, had a birthday anniversary last week, and the invited guests were quite charmed with the treatment accorded them. Every one reached home in safety!

The funeral took place on Wednesday last of Miss Anna Virginia Schumm, daughter of Mr. and Mrs. John Schumm of Spruce Grove. Interment took place in the cemetery of St. Matthew Lutheran church, Spruce Grove, the funeral obsequies being performed by Rev. G. Poetsch, the pastor.

One of the old-timers of this district passed away on Friday last in the person of Mr. John Boudreau. Deceased was in his 80th year. His wife had pre-deceased him a number of years ago. His surviving daughter is Mrs. Edward Guenette. The funeral took place on Monday, to St. Joseph's churchyard. Rev. Chas. Keenan officiated.

\* Geo. Felk, an old-timer of this district, was taken ill on Monday last while visiting with old friends here. A doctor was called, and he was taken to the City.

## Wheat Pool News Notes.

Prince Rupert, the British Columbia City, which the Wheat Pool opened as a grain shipping port, has shipped close to three million bushels of grain of the 1926 crop, so far. The big government terminal elevator which the Pool has under lease, is working splendidly.

In order to suggest improvements in the system of setting the standard for grades 4, 5, 6, and feed wheat, the directors of the wheat pool met in conference with the Alberta members of the Grain Standards Board last week.

The Canadian Government is considering the establishing of a pool sales system to dispose of silver fox pelts grown in the Dominion. It is proposed to organize the Silver Fox Pool on the same general basis as the Canadian Wheat Pools.

At a meeting of the Loughheed Wheat Pool Local 75 farmers participated and expressed dissatisfaction at what the Wheat Pool has accomplished. The meeting decided by unanimous vote to sign the new contracts, when received.

FOR SALE 18 Young Pigs, six weeks old on March 1st. Jas. W. Denton, Duffield P. O.

## NOTICE!

A Bylaw (No. 1) restraining animals from running at large in the Municipal District of Inga No. 520, requiring that all domestic animals are prohibited from running at large within the limits of the said Municipality during the whole of the year.

Form of Ballot.

FOR	
AGAINST	

This Bylaw will be voted on at the general election for Councillors to be held in each Division on Saturday, February 26, 1927.

Dated at Duffield this First Day of February, 1927.

E. H. FIDGON,  
Secretary M. D. of Inga No. 520.

## Here and There

Nova Scotia's coal output for the year ended September 30, was 5,500,000 tons, as against 3,200,000 tons for the previous year.

Tonnage of freight handled over the Halifax piers during the year of 1926 shows an increase of nearly 18 per cent. During the season 117 trans-Atlantic steamships entered the port, as compared with 980 during the season of 1925.

Herod's Pride, the mare imported into Canada by the Prince of Wales, and owned by Fred Johnston of Calgary, since last September, has been sold to the Brown Shasta Stud Farm in California for a sum in excess of \$5,000.

Wholesale fish firms of Yarmouth and Halifax report that 1926 was a record year, as to the demand for fresh and smoked fish in Canadian and United States markets. Shipments were frequently made from Halifax to western Canada and points in California.

Immigration to Canada for the eleven months of the calendar 1926 ended November 30, amounted to 130,569 persons, according to a recent statement issued by the Department of Immigration and Colonization. This is an increase of 61 per cent. over the same period of 1925, when the total immigration was 80,904.

The Maori Rugby Football team, who have recently completed a successful tour of France and Great Britain, passed through Montreal recently en route over the Canadian Pacific lines to Vancouver, where they sailed for New Zealand January 27. This team won, during their eight-month tour, 22 of 31 games played.

According to recent compilation by the Canadian Government, Canada now leads the world in public per capita distribution of electricity from central power stations. The figures of kilowatt-hours generated per capita per annum by the five leading countries are: Canada, 1,200; Switzerland, 886; United States, 581; Sweden, 467; Norway, 370.

The Russian Government is to buy another herd of Canadian horses this spring. It was announced at the Alberta Provincial Horse Breeders' Association meeting in Calgary recently. R. E. Wilson, Dominion Government agent, who was responsible for the statement, declared that from 2,000 to 5,000 horses would be required.

The year 1926 was a banner year for the British Columbia coast seamen's service of the Canadian Pacific Railway, according to Captain J. W. Troup, manager of that branch of the C.P.R. fleet. The "Princess Marguerite" and the "Princess Kathleen," in the triangular service, make a fine record and the Alaskan tourist business was brisk.

For the first time in the history of Alberta, alfalfa seed is being shipped to Denmark. This is registered Grimm alfalfa grown by the Grimm Alfalfa Seed Growers' Association, at Brooks, which this year produced one-third of a million pounds of this seed. It appears that Danish growers have experimented with this seed in the past and have now placed an order for 50,000 pounds.

The Nova Scotia Fruit Growers' Association has requested the Provincial Department of Natural Resources, to appoint and send overseas a Commission to acquire into the conditions under which Nova Scotia apples are marketed. The suggested personnel is, the Secretary of the Nova Scotia Fruit Growers' Association, a representative of the United Fruit Companies and the newly appointed Provincial Horticulturist, Prof. Middleton.
